Women's Empowerment Conference:

Simultaneous Interpretation

Case Study

The Client

A **women's empowerment group** within the United Nations Global Compact office, with more than 12,000 stakeholders in over 160 countries.

The Objective

The client's event is a two-day annual conference uniting more than 1,000 leaders in business, civil society, government, and the United Nations to discuss the economic impact and potential of women and girls globally, **in recognition of International Women's Day.**

They needed **expert** quality, live **language interpreters** to enable a seamless, **two-way stream of communication for over 300** of the 1,000+ worldwide presenters, panelists, and audience members.

★ Our Solution

We recommended 4 **professional simultaneous interpreters** who were **experts** in the dialects spoken by all in attendance.

To enhance the conference's quality, we also recommended the use of fully enclosed, **sound-proof interpreters' booths** for sound isolation and **minimal distraction** to both the attendees and interpreters.

For **ease of listening**, our state-of-the-art **Bosch® Infrared Interpretation System** was selected.

★ Our Solution

With the help of our **language interpreters**, **sound-proof booths**, and **full-scale simultaneous interpretation system**, **100% of participants** were able to listen to, process, and give feedback on discussions at the highest level.

Conference organizers were left **confident** and with **peace of mind**.

★ Client Feedback

Thank you so much for your assistance in coordinating all translation elements for last week's...event. Please pass along our thanks to the rest of the team as well - Your team's professionalism and flexibility made them an absolute pleasure to work with.

– Emily W., Logistical Coordinator, NY

Get in Touch

To learn how Ubiquus' **simultaneous language interpreters** and **Bosch® Infrared Interpretation System** can be used to eliminate cross-cultural communication barriers at **your** next conference, click below to send us an email.
